

# Motor Breakdown Insurance

## WHAT IS COVERED?

If your vehicle breaks down, even with a caravan or trailer attached, it will be recovered at no extra cost to you.

Breakdown recovery, road-side repair and transport of vehicle to a garage are also included.

Repair or replacement of keys and an option to upgrade to Home-Start and full European cover are available to you.

## LEVEL OF COVER

- **Bronze Level:** In the event of a breakdown more than a mile radius from your home we will send a recovery operator to the scene to repair, and if repairs cannot be effected, arrange recovery of the insured vehicle, you and up to 6 passengers, to the nearest garage able to undertake the repair.
- **Silver Level:** The same service as Bronze but also includes assistance at home and should you breakdown away from home, and if the vehicle cannot be repaired by a local garage the same working day, we will recover the insured vehicle, you and up to 6 passengers to your home or a repairer near your home.
- **Gold Level:** The same service as Silver but includes cover in Europe. If you have elected to take Silver or Gold cover levels additional benefits including overnight accommodation or a hire car may be available.

## SIGNIFICANT BENEFITS OVER COMPETITOR PRODUCTS

- Highly competitive pricing.
- Periods of 12, 24 or 36 months.
- Wider eligibility criteria.
- Provided by Acasta European Insurance Company Limited.
- Premium financing available over 10/12 months.
- On-line policy registration.
- The vehicle must be insured under a main private motor insurance policy.
- Up to 6 call outs per year.

## ELIGIBILITY CRITERIA

- The invoice price / current market value of the insured vehicle does not exceed £100,000.
- The insured vehicle is less than 15 years old at inception of the policy.
- The insured vehicle has a maximum GVW of 5 tonnes at inception of the policy.
- The insured vehicle has covered less than 120,000 miles at inception of the policy.
