

# Tyre Insurance

## WHAT IS COVERED?

We will protect you in the event of you sustaining either accidental or malicious damage to tyres fitted to your vehicle.

The cover includes the cost of replacement or repair of a tyre, up to the claim limit purchased, as long as the tyre tread depth is above the UK legal roadworthy limit at the time of the claim.

We **DO NOT** cover wear and tear to tyres.

- Replacement – We will pay the replacement costs for supplying and fitting the same make of tyre (subject to availability) following accidental or malicious damage. The amount we pay will be dependent upon the claim limit and period selected. A maximum of 2 claims per annum is allowed.
- Repair - We will pay the cost of a puncture repair to the tyre up to £50 (including VAT). Any benefit paid for repairs will be included in the aggregate claims limit.
- No policy excess.
- Access to an established national repairer network.
- Run-flat tyres will be repaired wherever possible. In the event that a run-flat tyre cannot be repaired, or the manufacturer states they should not be repaired, we will pay for an equivalent replacement tyre, subject to availability.
- Any costs for a replacement tyre will be based on the dealer supply price or the Kiwi-Fit supply price (or an alternative national supplier as appointed by the administrator), or the claim limit, whichever is the lower.
